Hamlet	Graham Lee	2	USGS, DAR	Sugar Grove		10	USGS
Hampton Family		4	G. Carpenter	Viola		10	USGS
Hawkins		7	USGS	Western	Schoening, Swedona	1	USGS
Henderson Grove		9	USGS	Woods		1	USGS
Hopewell	Woodhams	10	USGS, DAR				

### What These Maps Are

Aids in locating cemeteries. These are not road maps, although they do a pretty good imitation. Arm yourself with a good county map and/or a GPS unit. The best combination is a laptop running Delorme's Street Map USA with the GPS attachment.

The information contained in these locator maps should be considered suspect at best. The base cemetery locations are taken directly from the United States Geological Survey-USGS, and converted from degrees-minutes-seconds to degrees-minutes decimal. USGS information was then correlated with Delorme digital maps. Both the USGS and Delorme have been known to contain errors. Although I have a fairly high opinion of myself, I too have been known to err.

### What These Maps Ain't

Complete. They only locate cemeteries listed by the USGS. But this is the digital age. If you can add a cemetery not listed, contact me. Please be specific with where to locate the cemetery-GPS coordinates are preferred, but "on the NW corner of the intersection of Main and Maple" will work just as well. "West of Ourtown about two miles" won't cut it.

### Printing

You will find that the Acrobat pdf format prints beautifully, at a resolution limited only by your printer. The maps were designed with this in mind, so print to your heart's content, use them as field guides, mark them up. You can always print out another copy for archival purposes.
